NEIGHBORHOOD NEWS FROM VAUNA TO LONGBRANCH

JUNE, 1981 Volume VIII, Issue 6

BIG ROUND-UP AT K.C. CORRAL

The second annual K.C. Corral Round-up is scheduled for June 12, 13, and 14 at Key Center. This year it promises to be very exciting and lots of fun for all who participate.

The main event and also a new addition this year is a carnival to be held between Walt's and the K.C. Corral. The carnival will be put on by "Carousel Midway Shows", a professional carnival company. It will feature six all new rides, amusing shows, and of course cotton candy. The carnival will be open from 1:00 pm to 10:00 pm on June 12, 11:00 am to 10:00 pm on June 13, and 12:00 noon to 8:00 pm on June 14.

Another event at the Round-up will be a flea market in the center area of K.C. Corral. Anyone interested in getting space for a booth in the flea market should sign up now at either the K.C. Drug Store or the Fireside Shop.

Also, the store owners will feature at "boardwalk sale" at K.C. Corral. Special sale items will be on tables outside each store on the boardwalk.

And finally, if you feel frustrated and angry, get rid of those feelings by bashing away at an old junk car in front of Key Center Realty. For 50¢ you can relieve many unwanted tensions and have fun, too.

Lots of free balloons will be given away to all who attend.

The important part of this whole round-up is that the proceeds will benefit the new Key Peninsula Health Center. So come on out on June 12, 13, and 14 and enjoy yourself.

VICTOR HOLDS FLEA MART

Members of the Victor Community Club House will host a Flea Mart on Saturday, June 20, 1989, from 9 a.m. to 5 p.m.

Items to be sold will include the usual and unusual including: baked goods, plants, used clothing, hand-made crafts, stationery and rummage.

Proceeds will be donated to the building fund for the Victor Community Club House which is located behind the Fire Station on Hwy. 302 in Victor.

Free coffee will be served all day.

LIBRARY FRIENDS HOLD LAST MEETING IN OLD QUARTERS

On May 20 the Friends of the Library met in Vaughn. President Skiles opened the meeting by informing the group that they were embarking upon a project which would use all the money in the treasury. This organization is providing about \$1600 for the stained glass windows which will decorate the north wall of the new library building.

Of the twenty artists who submitted their work for consideration, the committee narrowed the contestants to four. Slices of sample works of Ruth Brockman of Vaughn, Mark Culrud of Gig Harbor, Kathryn Thompson of Olympia and Susan Williams of Lakewood were projected. The artist chosen will be commissioned to create six pieces especially for our library. All of the samples were of exquisite beauty and showed great talent; the choice was difficult. The art committee consists of Nancy Bennett, Susan Wynstra, David Till and John Austin. The finalization of plans and commissioning of the artist to do the glass work will be soon.

The open house and dedication of the new library will be on July 26 from 2 to 5 p.m. Booth Gardner, Norm Dicks and Jack Bujacich have been asked to speak briefly.

The name of our new library was proposed by Pierce County Library Board to be Key Center Library, however, this was opposed by all of our group but one. Key Peninsula Library is the favored name.

The Friends of the Library will meet next on June 17 at 8 p.m. in the new library building. Bring your own chair as the moving may not be completed by that time.

-Stella Retherford.

COMMUNITY ACTION DIRECTOR TO ADDRESS SENIORS

Mr. Steven Ahyong, Executive Director of the Pierce County Community Action Agency, will be the featured speaker at the June 4th lunch meeting of the K.P. Senior Society.

Mr. Anyong, a highly qualified expert on senior problems, will discuss the probable impact of federal budget cuts on senior survival.

He will also cover the relationships of Co-munity Action with senior organizations and suggest ways that seniors can help protect themselves against inflation.

For further information on Community Action aid, seniors, handicapped, and low-income persons should call the Vaughn Community Action office, 884-4440.

ROCKET POWER AT VAUGHN ELEMENTARY

Look! Up in the sky! Is it a bird? Is it a plane?

No, it's Mr. Williams and students of Vaughn Elementary launching their rockets.

Mr. Williams sets up the launch pad. Wires are run from the control panel to the pad and to the power source (Mr. Williams' trusty Pinto). Circuits are checked. All AOK for launch.

The first rockets are put in place. The first student starts the count down and onlookers join in 5-4-3-2-1-FIRE!!

There is a s-s-swoosh and the shiny rocket screams up around 300 feet. There is a "pop" and a puff of smoke as the motor stops and a small parachute opens. The tiny rocket returns slowly to earth. A happy student turns the controls over to the next student.

The rockets were made by each student with Mr. Williams' supervision and assistance and are launched by each builder.

To Mr. Williams and students, a hearty Well Done.

YOUR PREZ SEZ:

A Big thank you this month to those who have made a special donation to the Newsletter. With rising costs, especially of postage, this is greatly appreciated.

As some of you know, we have had to make some changes for Wednesday night bingo and need to have more people to help as monitors. If you can assist in this way for a couple of hours please call Tom Van Slyke 884-3428 or John Rypdall 884-3599.

I am concerned about our Key Peninsula - all groups are finding it more difficult to have volunteers who do such an invaluable service. Are we at a point where we must give up activities which benefit the community because no one cares enough to be a chairman? Especially here at the Center we depend on volunteers for our operations in order to allow people to use the facilities at low cost. A case in point: We have been unable to find anyone to act as chairman for Pioneer Day in August. We have many excellent workers and groups to help but someone needs to spearhead the activity. It would be a loss to our area if we cannot have this day of fun for young and old. Any suggestions would be welcomed.

Marian Wagner

SENIORS GET PASSENGER VAN

The K.P. Senior Society has just purchased another comfortable twelve passenger van to carry seniors and handicapped into Tacoma and on recreational trips.

The van will also be used on Wednesdays for local transportation to Key Center stores and the Key Peninsula Health Clinic and on Thursdays to carry passengers to the K.P. Senior Society lunch meetings.

There is no fare but donations are welcome due to the high cost of gasoline. For information on schedules, reservations, and door-to-door service call the Community Action office at Vaughn, weekdays 9 a.m. to 3 p.m. at 884-4440 or Dolores Ramsdell at 884-3459.

KEY PENINSULA EMPLOYMENT AND VOLUNTEERING

The Pierce County Community Action office at Vaughn is registering both persons seeking part-time or full-time local employment and those wishing to volunteer part-time services for aid to elderly, handicapped or other good causes to improve Peninsula living.

The office also welcomes calls soliciting workers.

For further information, call 884-4440 weekdays between 9 a.m. and 3 p.m.

Thank You All

I would like to thank everyone who graciously made the Spring luncheon and fashion show a success. It was my pleasure working with everyone and meeting new friends. I would especially like to thank Judy Wilson for her extra help, along with Nat Knon and Corky Hariman, without their help the luncheon would not have been a success.

The music of Mike Strange is still being enjoyed by many of the ladies who attended the show. On behalf of all the Civic Center Board Members, I want to say, thank you to all the models and organization who donated their effort and time.

Thank you all
Vicki L. Henschel

The Key Peninsula Newsletter is published monthly by the Key Peninsula Civic Center as a community service and Board project. It is staffed by volunteers and solicits news of general interest to the community.

Thomas Alva Edison . . . one time when a colleague noted that several thousand experiments had been failures, Edison exploded, "Failures? Not at all. We've learned several thousand things that won't work!"

WELL CHILD CLINIC - Tuesday, June 3 and 17th. Health screening exams and immunizations. Fee: \$5.00. Call 884-2757 for appointment.

SENIORS TO HAVE OWN HOME

Key Peninsula Seniors will be moving into the present Vaughn Library as soon as it is vacated. The library will be moving into its new building during June.

The Senior group has been meeting every Thursday for potluck lunch in the Gold Room where it will continue for weekly meals. The library quarters will be the senior recreation, games, and lounge center open five days a week, and the K. P. Community Action office will occupy a portion of space.

May 17, 1981, we put on our first show of Fine Arts and Crafts. Being our first, we felt it was a good display with many unique and good quality items featured for sale.

Of course, we all have room to learn and grow and our group is no exception. To help us in the growing process, we are happy to have Martha Stokes of Home with us. Martha has had much experience working with artists and arranging and planning shows for them. She can teach us much on planning, preparations and set-ups to help make any show more successful.

Our next meeting is scheduled for June 15, at which time Martha will conduct a mini workshop. Perhaps you'd like to display in an arts and crafts fair but don't know where to begin. Or maybe you've had problems with an art project, whether it is finishing a painting, framing or simply how to hang or display a favorite piece of art. Then this workshop is for you.

Remember the date, June 15, 1981. We meet at The Key Peninsula Civic Center in Vaughn at 7:30 P.M.

We welcome the public to our meetings and activities. We would especially like to encourage high school students, interested in visual arts, to see what we are all about. Bring a friend along.

BAYSHORE GARDEN CLUB

On June 19th members will meet at the Classic Restaurant for lunch at 12:00 noon. Following lunch will be a Herb Garden Tour.

PENINSULA SOCIAL CLUB

A potluck dinner and meeting of the Peninsula Social Club will be held at 6:00 p.m. on Tuesday, June 9th at the Longbranch Church Annex.

NUTRITION

On June 16th there will be a picnic pot-luck at the home of Jean Humphreys at 12:00 noon. Pooling cars at the church at 11:30.

(44) SUN TAN

The color of the skin depends mainly on the amount of melanin in the pigment cells. It is very popular, especially with young people, to cultivate a deep sun tan. Before setting out to acquire a tan it is wise to keep several things in mind. First, a sun burn is the same as any other burn and should be treated the same. Second, some skins are more sensitive than others, especially blonds and redheads, and special care should be taken to protect them. Third, the burning rays from the sun are present even on a hazy day and fourth, consult your doctor about a good sun screening product and time your exposure to the sun - a short time the first day and gradual increases as the days go by. Finally, too much exposure over a long period of time can result in a weather-beaten appearance of the skin and even cancer of the skin.

VAUGHN GARDEN CLUB

LITTLE BY LITTLE

Several times a year a good friend who lives near Chicago comes to Seattle on business trips. On her last visit the Scotch Broom was at the height of its golden glory. She had never seen it before and thought it lovely beyond description. It's such a pest when it grows in places where we don't want it and so prolific that we fail to appreciate its beauty. It is beautiful.

Wouldn't it be wonderful to buy a can of paint remover, lye or most anything and to be able to remove the top with a simple twist of the wrist, instead of one of these newfangled safety lids? Everyone who happened by my house recently got a shot at opening a can of tung oil. Results - failure, so I had to make a trip to the store where the manager after several attempts, got it open. A glance at the shelves of new stock coming in wasn't encouraging; they all had fancy gadgets for tops. When the directions read turn top to the right until you reach the notch then pressing firmly as you turn etc etc - Forget it! You're in trouble.

A friend tells me her 4 year old son is an expert at opening things. He loves to play with them, sort of like opening one of those fancy boxes made by the chinese that used to be popular. I worked on one for years without success until one day as I sat with the box in my hand not thinking about it, the lid popped open. Since I didn't know what I'd done right I couldn't get it back together. I'm not suggesting that we get some youngsters or chinese to open our containers. I'm saying why not discard these 'safety' tops and go back to a nice simple lid?

It's spraying time; no other field is so embattled as pest control. More than 400 insects have developed resistance to sprays - deprived of their natural predators and parasites, they become pests.

As the chemicals fail, the farmers pour on more. The results are dismal. When we began using petrochemical insecticides after World War II insects ate only 7% of the crop. Today we use twelve times the amount of insecticide and the bugs are eating 13% of the crop. Home gardeners account for 10% to 20% of the pesticide, without the foggiest idea as to what they're using or why. Spraying is a reflex. Something to use to save work. (My statistics are from an article in my last Audubon Magazine)

Ruth Little

The final meeting for the season of the Vaughn Garden Club is the annual pot-luck picnic.

This year it will be at Jackson Lake on Thursday, June 18th starting at 12:30. Co-hostesses are Florence Jones, Evelyn Nederlee and Beulah Kupka.

The nominating committee will present the slate and an election of officers for next year will be held.

In addition to a dish for the pot-luck luncheon, everyone is asked to bring her own place setting, including plate, cup and silver.

Cars will meet at the Civic Center at noon for pooling rides.

DR. PENROSE GUILD

The last regular meeting of the season for members of the Dr. Penrose Orthopedic Guild will be held on Thursday, June 11 in the Key Center home of Mrs. Ken Brones. Mrs. Robert Moffat and Mrs. Robert Rodine are co-hostesses for the noon luncheon.

Officers elected for next year are Mrs. Glenn Collins, President; Mrs. Vernon Merrill, Vice President; Mrs. Coleman Anderson, Secretary; and Mrs. Sanderson Rice, Treasurer.

STRAWBERRY STAND TO OPEN

Barbara Nimrick will again be selling berries at the Brook Restaurant parking lot this year. She expects to begin around June 10th.

The strawberries are grown locally and brought in fresh daily. The availability each day depends on the weather. In addition to strawberries, some local raspberries and double yoke eggs will be sold.

CHURCH ANNIVERSARY

The Longbranch Church will observe its anniversary on June 7th. Reminiscence of the Church history, honoring charter members, Mrs. Edna Nixon, Mrs. Hazel Conboy, Mrs. Agnes Schultz, Mrs. Helen Soderquist and Mr. and Mrs. Glasson. New members of the past year will be introduced.

EVERGREEN SCHOOL CARNIVAL SUCCESSFUL

On May 8, Evergreen School held its annual carnival. The parent group was busy all day preparing the gym for the carnival beginning at 6:00 p.m. By 5:45 many people were waiting to come in while last minute touches were put on inside.

By 6:30 the carnival was in full swing. There was a cake walk with beautifully decorated cakes and cupcakes—all donated by parents of Evergreen students. Also donated were white elephant items, plants, cookies, and pies for the concession, and much much time.

Each classroom presented a game as its part of the carnival. The sixth graders presented a jail—put your favorite or least favorite teacher or anyone else in jail for the price of one ticket. It was quite a success and lots of fun.

Another fun booth was the sponge toss put on by Mrs. Hornbeck's fifth graders. Mr. Robinson, the principal, and Mrs. Hornbeck both got quite wet.

Other booths were face painting—very popular and well done by Judy Cleghorn, Mady Plumer, Jane Pendergrass and others; jewelry engraving, paper airplane toss, fishpond and dart throw.

A big highlight for adults was the raffle. David Hahn did a terrific job as M.C. for this event. Many people were winners of great prizes given by local merchants.

The parent group wishes to express thanks to all people who helped in any way to make this year's carnival a big success and lots and lots of fun for students and adults alike. The proceeds of the carnival will be going to make a cemented area on the playground for hopscotch and four square.

LONGBRANCH CHURCH

Sunday, members and friends celebrated Hazel Conboy's 90th birthday. She was presented a "pink orchid", and a decorated cake in her behalf, by the Ladies Aid.

ONE SALESGIRL in a candy store always had customers lined up waiting while other salesgirls stood around with nothing to do. The owner of the store noted her popularity and asked for her secret. "It's easy," she said. "The other girls scoop up more than a pound of candy and then start taking away. I always scoop up less than a pound and then add to it."

Weekly HEALTH TIP

(45) SUN GLASSES

Glare from the sun can cause eyestrain so it would be wise to protect the eyes when out in the sun. The eye can make many adjustments to degrees of light and it is not necessary to use sun glasses all of the time, but when the sun is especially bright, or there is glare as off water, your eyes will be more comfortable if they are protected. Your oculist can prescribe lenses for you and there are many types of sun glasses on the market. Older people, especially, should not wear sun glasses inside as they will tend to obscure vision.

PIERCE COUNTY COOPERATIVE EXTENSION

NEWS RELEASE

by Joanne B. Ross

Are Radiant Heaters Energy Efficient and Safe?

Is the radiant heater a cheap alternative to the furnace during cool spring weather?

Ads for radiant electric quartz and kerosene heaters seem to suggest they might be, but you should be aware of their limitations and hazards, says Joanne Ross, Washington State University's Pierce County Extension agent.

Radiant heaters deliver heat directly in the form of infrared rays. You feel the heat immediately. Eventually objects in the room give off heat, warming the air.

Radiant heaters can be cost-efficient for awhile under certain circumstances. They can be cost-efficient if used in a small room for only a few hours, the number depending on the cost of the fuel you are using. In addition, you must turn down the thermostat controlling your furnace significantly.

Don't expect to enjoy the same comfort provided by your forced-air furnace. You tend to lose the warming effect of a radiant after you get ten feet away. That's why radiant heaters are more appropriate for smaller rooms.

Safety is another consideration. Quartz-electric models should be equipped with a switch that cuts off the power if they should tip over. An adequate guard for the front heating element is another safety requirement.

Take extra precautions when open flame heaters are in use, such as the ones that burn kerosene. Proper ventilation is important because a product of incomplete combustion is carbon monoxide, a deadly gas.

Although the heaters may burn at near 100-percent efficiency when new, they must be cleaned and maintained properly to retain that efficiency.

Avoid using them in a bedroom while someone is sleeping, and don't try to dry wet clothing on top of them. Also keep them away from flammable materials.

When purchasing a radiant heater, look for one that has a UL or FM label. These labels are your assurance the heater has met Underwriters Laboratories or Factory Mutual standards.

Follow standard safety precautions for handling flammable liquids when storing kerosene or filling the heater.

Cooperative Extension programs and information are available to all citizens of Pierce County without discrimination.

EXCEPTIONAL PET. MILK GOAT. Beautiful healthy 11 month old EGYPTIAN NUBIAN doe ready to breed and produce great milk. Affectionate and easy to care for. \$90.00 to good home. 884-3581 or 884 4440.

THOMAS Jefferson's ten rules for the good life:

1. Never put off till tomorrow what you can do today.
2. Never trouble another for what you can do yourself.
3. Never spend your money before you have it.
4. Never buy what you do not want because it is cheap; it will be dear to you.
5. Pride costs us more than hunger, thirst, and cold.
6. Never repent of having eaten too little.
7. Nothing is troublesome that we do willingly.
8. Don't let the evils which have never happened, cost you pain.
9. Always take things by their smooth handle.
10. When angry, count to ten before you speak; if very angry, count to one hundred.

LIVING WILLS

By Jeffrey A. Robinson
Attorney at Law

A progress report to: Telephone Utilities subscribers.

Telephone Utilities reports progress on new digital switching system investment for Gig Harbor/Peninsula areas.

| | |
|--|--------------------|
| DMS 100/200 digital switching system, Gig Harbor, Burley, Fox Island | \$2,366,800 |
| Additional equipment — expand direct distance dialing capabilities by approximately 100% | \$ 873,000 |
| Equipment for reducing party line service in Burley area | \$ 154,000 |
| Equipment for reducing party line service in Lakebay area ... | \$ 454,000 |
| Equipment for automatic number identification | \$ 75,000 |
| | <u>\$3,922,800</u> |

The above installations are on schedule for the planned November 7, 1981 cutover.

This is to advise our customers during the period prior to the cutover of the new digital switching system our present facilities may be overloaded during peak calling periods which could result in slow dial tone and all circuit busy conditions on Long Distance calling. Granting of one-party service will be impeded.

During this period we solicit your patience and look forward to major service improvements to be provided by the new Digital Switching System come November 7, 1981.

**Telephone Utilities
of Washington, Inc.**

In 1979, the Washington State Legislature passed a bill entitled the "Natural Death Act". The purpose of the new law is to allow adults the right to control decisions relating to their own medical care. This includes the power to have life-sustaining procedures withheld or withdrawn when the individual's medical condition is of a terminal nature. The law establishes the right of an adult to make a written document instructing their physician to withhold or withdraw such life-sustaining procedures.

Popularly known as the Living Will, this document is permitted in other states, as well as in Washington. The legislature believed that the dignity of the patient is paramount; and because of the uncertainty as to the legality of terminating the use of life-sustaining procedures, the intent was to allow the patient to make his or her own decision.

What is a "life-sustaining procedure"? The definition includes any medical or surgical procedure which uses mechanical or artificial means to sustain a life when this would only serve to artificially prolong the moment of death. So, when in death, one may refuse to allow the application of life-sustaining procedures merely to postpone the moment of death.

How does someone insure against the use of such procedures when they are terminally ill? The Living Will is a document which directs the physician to refrain from prolonging life by artificial means. Certain requirements must be met if this Will is to become effective. First, the person must be of sound mind and make the declaration voluntarily. Second, it must be signed in the presence of two witnesses who are not related and who would not be entitled to inherit any part of the estate of the declarer, either by Will or by intestacy. Third, neither the physician, nor his or her employee, nor any employee of the hospital where the declarer is a patient may be a witness. Furthermore, no one who has any claim against this persons estate may be a witness. After following the proper method of executing this document, it will become a part of the patient's medical record.

Finally, this Living Will may be revoked by the declarer at any time, in any number of ways, including tearing it up or verbally expressing to the physician that he or she wishes it to be terminated.
